Sea Freight Services

At NFI, we specialize in providing comprehensive sea freight services tailored to meet your cargo transportation needs. Whether you require Full Container Loads (FCL) or Less Container Load (LCL) shipments, we offer a range of solutions to ensure the efficient and timely delivery of your goods.

Full Container Loads (FCL)

Exportation Consolidation – one of NFI's core strengths lies in exportation consolidation. We maintain regular weekly consolidation boxes from Cebu to strategic hubs like Singapore and Hong Kong. These hubs efficiently serve as transshipment points for cargo destined for various global destinations including the US, Canada, Europe, Middle East, Mediterranean, and all Asian countries.

Less Container Load (LCL)

NFI offers LCL services for shipments that do not fill a whole 20-foot or 40-foot container. As a well-known international consolidator, we provide space within a container shared by other customers' goods, offering an economical solution for smaller shipments.

Breakbulk & Project Cargo

NFI provides dependable logistics solutions for heavy, oversized, and non-containerized cargo. With coordinated handling, transportation, cargo securing, and delivery, we ensure your specialized shipments are moved safely, efficiently, and on schedule.

Air Freight Services

Operating on daily flight schedules to major destinations using reputable carriers, our air freight services provide a reliable means to swiftly transport your goods to their final destination.
